The image shows the NCBI Nucleotide search interface. At the top, there's a navigation bar with links for All Databases, PubMed, Nucleotide (highlighted), Protein, Genome, Structure, PMC, Taxonomy, and Book. On the right, there are links for My NCBI, Sign In, and Register. Below the navigation bar is a search form with fields for 'Search' (set to 'Nucleotide'), 'for', and 'Preview' (with 'Go' and 'Clear' buttons). There are also 'Limits', 'Preview/Index', 'History' (which is currently selected), 'Clipboard', and 'Details' buttons.

- Search History will be lost after eight hours of inactivity.
- To combine searches use # before search number, e.g., #2 AND #6.
- Search numbers may not be continuous; all searches are represented.
- Click on query # to add to strategy
